계정관련

The screenshot displays the 'UNI WEB HARD SERVER' management console. The main window is titled '서버관리(S) 서버설정(M)'. On the left sidebar, there are several menu items: '서버로그', '사용자계정', '웹하드설정', '서버 접속자', '서버통계', and '제작사'. The '사용자계정' menu item is highlighted with a red arrow pointing from the text '계정관련'. The main content area is titled '사용자계정' and shows a list of users with one user named '1' visible. To the right of the list are settings for the selected user, including a checkbox for '계정 사용안함(P)', a password field, a share folder path 'D:\₩유틸', and a '폴더찾기(B)' button. Below these are '폴더 권한설정' options: '다운로드 가능' (checked), '업로드 가능' (checked), '삭제' (unchecked), and '폴더 생성 가능' (unchecked). A red arrow points from the text '권한설정' to the '다운로드 가능' checkbox. At the bottom of the window, there are buttons for '추가(A)', '편집(E)', '삭제(D)', and '저장(S)'. The status bar at the bottom indicates '웹하드서버 실행중' and shows '0 KB 받음' and '0 KB 보냄'.
